

# CS 333: Network Security and Defense

## The Word Sneak Game

### 1 Introduction

This in-class game is mainly used to engage students in class, and help students to memorize what they have learned in this class.

### 2 Rules

- The instructor will play a clip from the Tonight Show, so students know what they are being asked to do.
- Participants will be grouped into pairs facing each other in conversation style. Each participant will get a list with certain terms previously covered in this class.
- The goal is to sneak the words into the conversation “casually and seamlessly”. As they “sneak” words into the conversation, they can check the words off of their list.
- Note: You can’t pass/skip any words. You have to follow the order.
- Audience will vote for the best performer, who get 3 extra points.
